

# ITT Programme

We are passionate about Primary Initial Teacher Training and work with a variety of partnerships and providers across our schools. We believe that collaboratively we are stronger, so we do not differentiate our training offer as we share the same vision for all trainee teachers, regardless of the route into teaching.

Our ITT Programme is part of a two year training pathway that develops trainee teachers from ITT to NQT. Through a shared understanding of what teachers at the start of their career need, we have developed a cohesive framework of training sessions that are intended to support and inspire whilst complimenting the bespoke work that takes place in individual schools.

We welcome all trainee teachers who are interested in supplementing their own in school training offer, to join us on this journey. For all bookings and enquiries please contact [teachingschool@newwavefederation.co.uk](mailto:teachingschool@newwavefederation.co.uk)

## **Termly Support and Training**

In their first year, new trainee teachers are invited to attend a variety of training sessions, practical workshops and seminars. All training sessions underpin the Teachers' Standards and support trainees in translating pedagogy into best practice back in schools.

All training is delivered by highly experienced, outstanding practitioners who have a proven track record of delivering quality outcomes.

## **Celebration Event**

The celebration event at the end of the training year is an opportunity to celebrate success, reflect upon the journey so far and start to formulate aspirations for the NQT year ahead.

# ITT Programme Training Schedule

## Autumn Term
